

The Book of Acts

The Book of Acts stands as a bridge between the Gospels and the Letters. If it were not for the Book of Acts we will not know how the Gospel got from Jerusalem to such places as Philippi, Thessalonica, Athens, Corinth, Ephesus and other places. The Book of Acts supplies us with that information. In chapters 1–12, Luke describes the activities of Peter and in chapters 13–28 he describes the missionary activities of Paul that reach as far as Rome. In our study, we will examine the sociological, historical, and theological factors of the book as well as trace significant principles that are involved in the expansion of Christianity from Jerusalem to Rome.
